

THE CLIENT

VEDIC SAAR by Manish Malhotra

Vedic Saar is a holistic wellness and spiritual guidance brand offering astrology, numerology, and Vastu consultations — making ancient Vedic wisdom feel modern, approachable, and genuinely trustworthy. The brand exists to simplify accurate predictions, practical remedies, and personalised guidance that helps people find clarity and balance in their everyday lives.

Noir was brought in to build the complete brand identity, website, and print collateral from the ground up. The goal: a visual language rooted in Vedic heritage that also reads as premium and credible to a modern audience discovering spiritual guidance for the first time.

Ancient wisdom doesn't sell itself — not because it lacks value, but because it's rarely been given a visual language worthy of it. That was the brief.

Rooted in Tradition

Ancient wisdom doesn't sell itself — not because it lacks value, but because it's rarely been given a visual language worthy of it. That was the brief.

VEDIC SAAR'S IDENTITY IS WARM, ROOTED, AND UNMISTAKABLY PREMIUM — BUILT TO MAKE ANCIENT WISDOM FEEL AS RELEVANT TODAY AS IT HAS ALWAYS BEEN.

DELIVERABLES

From the ground up — a complete brand identity, a full custom website, and a print system that carries the same visual language offline. Every deliverable built as one connected system, not three separate projects handed off in isolation.

What is Vedic Astrology?

Jyotish Shastra

Vedic Astrology, or Jyotish Shastra, is a 5,000-year-old sacred science rooted in the Vedas. It studies the precise positions of planets at the time of your birth to create your unique birth chart (Rashi) — a cosmic blueprint of your life.

This chart is not just about predictions; it's a map of your personality, karma patterns, strengths, challenges, and life purpose.

Unlike generic horoscopes, Vedic Astrology is deeply personalized and incredibly precise when interpreted correctly.
